

CW Research Transparency Statement

Chemical Watch (CW Research Ltd) works on a daily basis through our many publications, training resources and events with a wide range of experts. This information is accessed by an internationally diverse audience of stakeholders, each of whom may have only limited knowledge of the information source.

To be of greatest service to this audience and to ensure objectivity and transparency, we ask all contributors to complete the following statement.

Please note that your completion of this statement reflects your consent to publish your statement together with others

As a contributor to CW Research, I have been invited to offer my professional expertise. The views expressed do not necessarily reflect those of my organisation or clients my organisation represents. In the interest of offering important context, I declare that I am currently involved in the following types of activities (please put an 'x' in all boxes that apply):

Legal and/or advisory services to businesses and/or business organisations, for example substance defence activities (specify if you wish)

Legal and/or advisory services to regulatory or other governmental bodies
